## EAD2 - Electric Advance & Drop V2

### Design Highlights

- Unique Advanced and Drop Motion
- Manual swivel with self aligning feature when retracting
- Smooth quiet motion
- Perfect For Mounting TV Above Fireplaces

Thank you for choosing

## Safety Disclaimer

Important Safety Instructions

Explanation of graphical symbols

-(Electric Shock Symbol) = The lightning flash within an equilateral triangle is intended to alert you to the presence of un-insulated "dangerous voltage" within the products enclosure that may be of sufficient magnitude to constitute an electric shock to persons

-(Caution Symbol) = The exclamation point within an equilateral triangle is intended to alert you to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product

-(Tools Symbols) = The tools symbol within a coloured square are intended to highlight the required tools necessary for correct and safe installation of the product. These are intended as a guide only, and it is at the installer's discretion as to which tools are used.

**WARNING:** RISK OF ELECTRIC SHOCK, ONLY AUTHORIZED INSTALLERS TO OPEN THE POWER CONTROL BOX.

**WARNING:** To reduce the risk of fire or electric shock, do not expose electrical parts to rain or moisture, unless the product has been specifically designed to do so.

**WARNING:** Failure to provide adequate structural strengthening, prior to installation can result in serious personal injury or damage to the equipment. It is the installer's responsibility to ensure the structure to which the component is affixed can support the four times the weight of the component.

**WARNING:** Do not exceed the weight capacity. This can result in serious personal injury or damage to the equipment. It is the installer's responsibility to ensure that the total combined weight of all attached components does not exceed that of the maximum figure stated.

**WARNING:** Failure to provide adequate structural strength for this component can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the structure to which this component is attached can support five times the combined weight of all equipment. Reinforce the structure as required before installing the component.

## Warnings:

1. Read all technical instructions fully before installation and use. It is the installer's responsibility to ensure that all documentation is passed on to the end user and read fully before operation.
2. Keep all documentation.
3. Heed all warnings.
4. Follow all technical specifications and instructions during installation.
5. Do not use near water unless the product has been specifically designed to do so.
6. Clean only with a dry cloth.
7. Do not defeat the purpose of the polarized or grounding type plug. A polarized plug has two blades, one wider than the other. A grounding type plug has two blades and a grounding prong. The wide blade or third prong are provided for your safety. If the provided plug does not fit your outlet, consult an electrician or contact the manufacturer.
8. Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where the exit from the apparatus.
9. Unplug the apparatus during lightning storms or when unused for long periods of time.
10. Only use attachments/accessories specified by the manufacturer.
11. Refer all servicing to qualified personnel. Servicing is required regularly on an annual basis, when the apparatus is damaged in any way, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
12. To completely disconnect the apparatus from the AC mains, disconnect the power cord plug from the AC receptacle on the power control box.
13. To prevent overheating, do not cover the apparatus. Install in accordance with the instructions.
14. UK, Ireland and Hong Kong only – The power cord is supplied with a 13A plug having an earthing pin. The apparatus is earthed and this pin is not required for safety, merely to operate the safety shutter of mains outlet.
15. No naked flames such as lit candles should be placed on the unit.
16. Observe and follow the local regulations when disposing of batteries.
17. Do not expose the unit to dripping or splashing fluids.
18. Do not place objects filled with liquid, such as vases, on the unit.
19. Do not expose the batteries to excessive heat such as sunshine, fire or the like.
20. For all mounted apparatus, the apparatus should be installed on solid wood, bricks, concrete or solid wood columns and battens.
21. Always turn off power at source before putting on or taking off parts and cleaning.
22. Do not use outdoors unless marked for outdoor use.
23. Exceeding the weight capacity can result in serious personal injury or damage to equipment.

## Product Warranty

This product carries a warranty that covers the cost of labour and spare parts incurred by any defects in materials and workmanship under normal use during a two year period from date of purchase. Support for any problems that are not hardware faults are excluded from the warranty entitlement. This warranty does not affect your statutory consumer rights.

The following is excluded from warranty service:

- Malfunctioning caused by misuse or damage, accidental or otherwise, or service modification by persons not authorised by Future Automation, or the use of any non Future Automation supplied parts;
- Any electrical, or other environmental work external to your Future Automation mechanism including power cuts, surges or lightning strikes;
- Additional items not supplied by Future Automation although they may have been supplied together by the retailer;
- Any 3rd party software products controlling your mechanism;
- Any transfer of ownership. Warranty is provided only to the initial purchaser;
- Compensation for loss of use of the product, and consequential loss of any kind;
- Use of the product over the specified weight capacity;
- Any damage to products during transit that is not checked and notified as "unchecked" or "damaged" upon receipt of delivery.

Any part of your system that needs to be replaced during a warranty repair becomes the property of Future Automation.

# EAD2 - Electric Advance & Drop V2

## Package Contents

- 1 - Mechanism
- 1.1 - Wall Mount Plate
- 1.2 - Advancing Arm
- 1.3 - Swivel Locking Bolt
- 1.4 - KH Mount Plate
- 1.5 - Cable Entry / Exit Hole
- 2 - IR Remote Control

## Not Shown On Page

- 3 - x2 AAA Batteries
- 4 - Multi Pack Of Nut, Bolts & Washers
- 5 - Mains Power & Other Leads

## Nuts & Bolts Multipack:

A range of nuts, bolts, washers and spacers to aid in the mounting for your screen

# EAD2 - Electric Advance & Drop V2

## Before you start, check the following:

- The product is in good condition
- No damage to any parts
- Wiring is all secure
- The unit is in the up position
- Test the movement of the mechanism

# EAD2 - Electric Advance & Drop V2

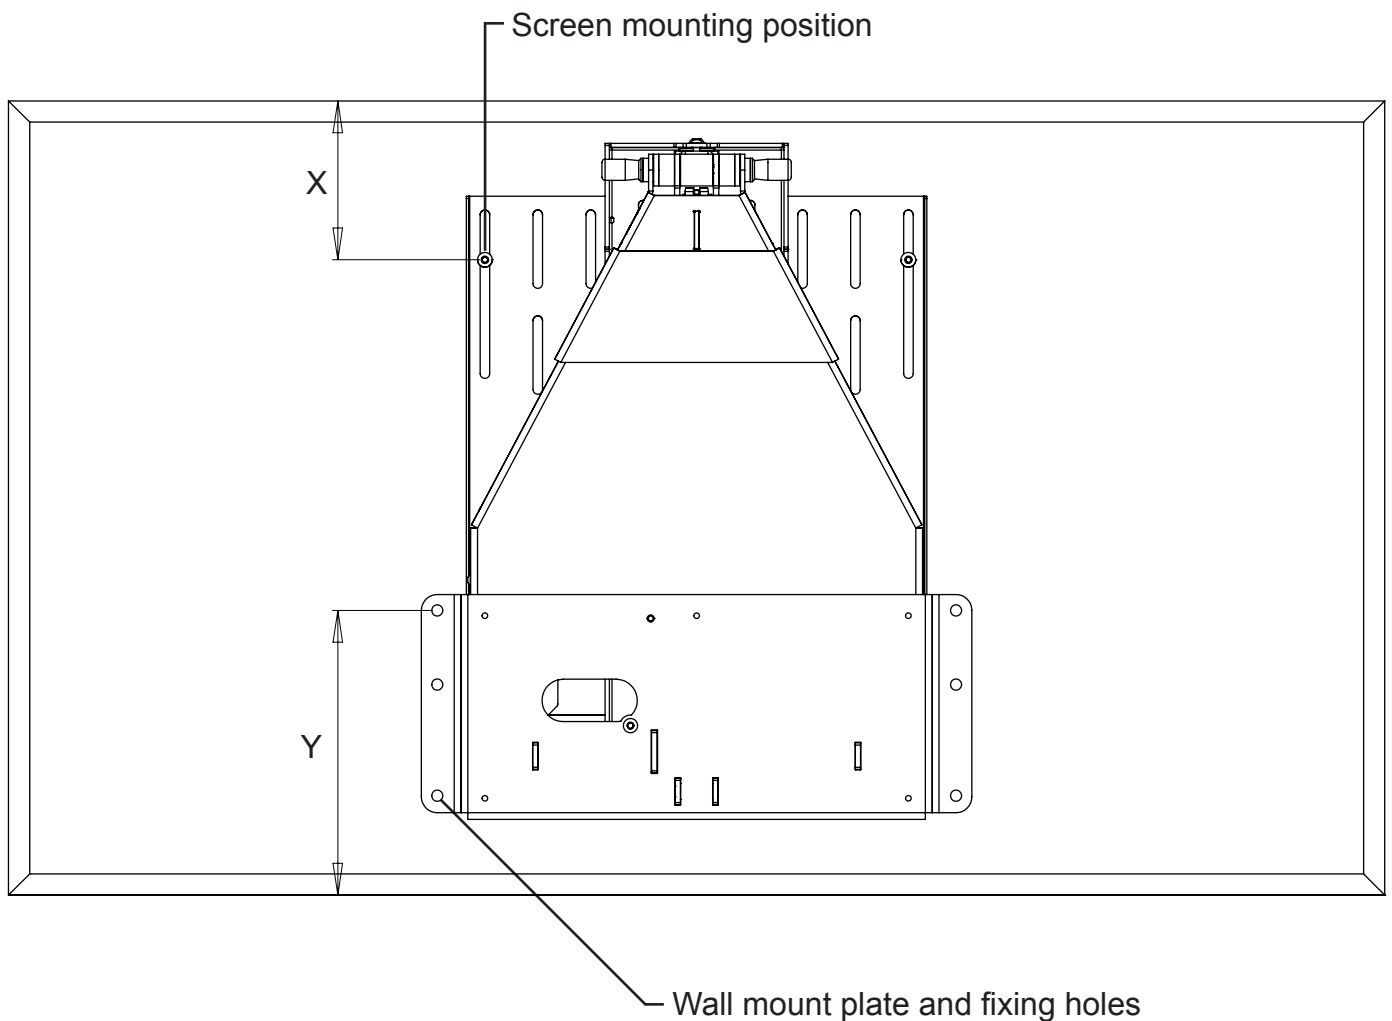

## Screen Positioning

Establish the mechanism positioning behind the screen and where the mounting holes are so the correct height is achieved when fixing to the wall.

Make sure the mechanism is in the IN position when doing this.

To establish clearances and general requirements please refer to the EAD2 Tech Sheet.

A recommended mounting option is to recess the mechanism into the wall so the screen sits flush with the wall in the up position.

# EAD2 - Electric Advance & Drop V2

## Fitting the mechanism to the wall

Once the position of the wall plate has been decided with reference to where the screen will be fix to the wall using all the available wall fixings.

Make sure to use suitable fixings

# EAD2 - Electric Advance & Drop V2

## Cable routing

Bring the cables through the wall and the EAD2 wall plate. Loop around the hinge tube allowing enough slack not to get caught or pulled taught. Run the cables inside the arm and cable tie to the management brackets. Bring the cable out through the exit hole and down to the screen. Make sure there is enough slack from the screen to the mechanism to allow for movement.

## Section view

# EAD2 - Electric Advance & Drop V2

## Mounting the screen

Attach the screen to the KH mounting plate using the appropriate fixings found in the fixtures pack.

It may be necessary with some screens to use spacers to provide clearance for AV cables at the rear

It is possible to get further height adjustment by repositioning the mounting toggles up or down.

Mount Toggles

# EAD2 - Electric Advance & Drop V2

## Tilt Adjustment (If Required)

To adjust the tilt of the screen when in the up position, run into the out position, then loosen the internal bolt and the locking nuts so the locking boss can slide up or down.

# EAD2 - Electric Advance & Drop V2

## Tilt Adjustment (If Required)

Turn the captive bolts simultaneously or turn by turn to alter the tilt position. Tighten the internal bolts and locking nuts and run the EAD2 back into the up position to see the tilt alteration. It may be necessary to repeat this procedure a few times until the desired tilt has been acquired.

TURN BOLT CLOCKWISE -  
BOTTOM TILTS OUT

TURN BOLT ANTI-CLOCKWISE -  
BOTTOM TILTS IN

Once tilt position is set tighten the internal bolts and locking nuts back up

# EAD2 - Electric Advance & Drop V2

## Swivel Option

Remove swivel bolt to enable swivel function, if not required leave in place for parallel tracking. Up to 45 degrees rotation in each direction.

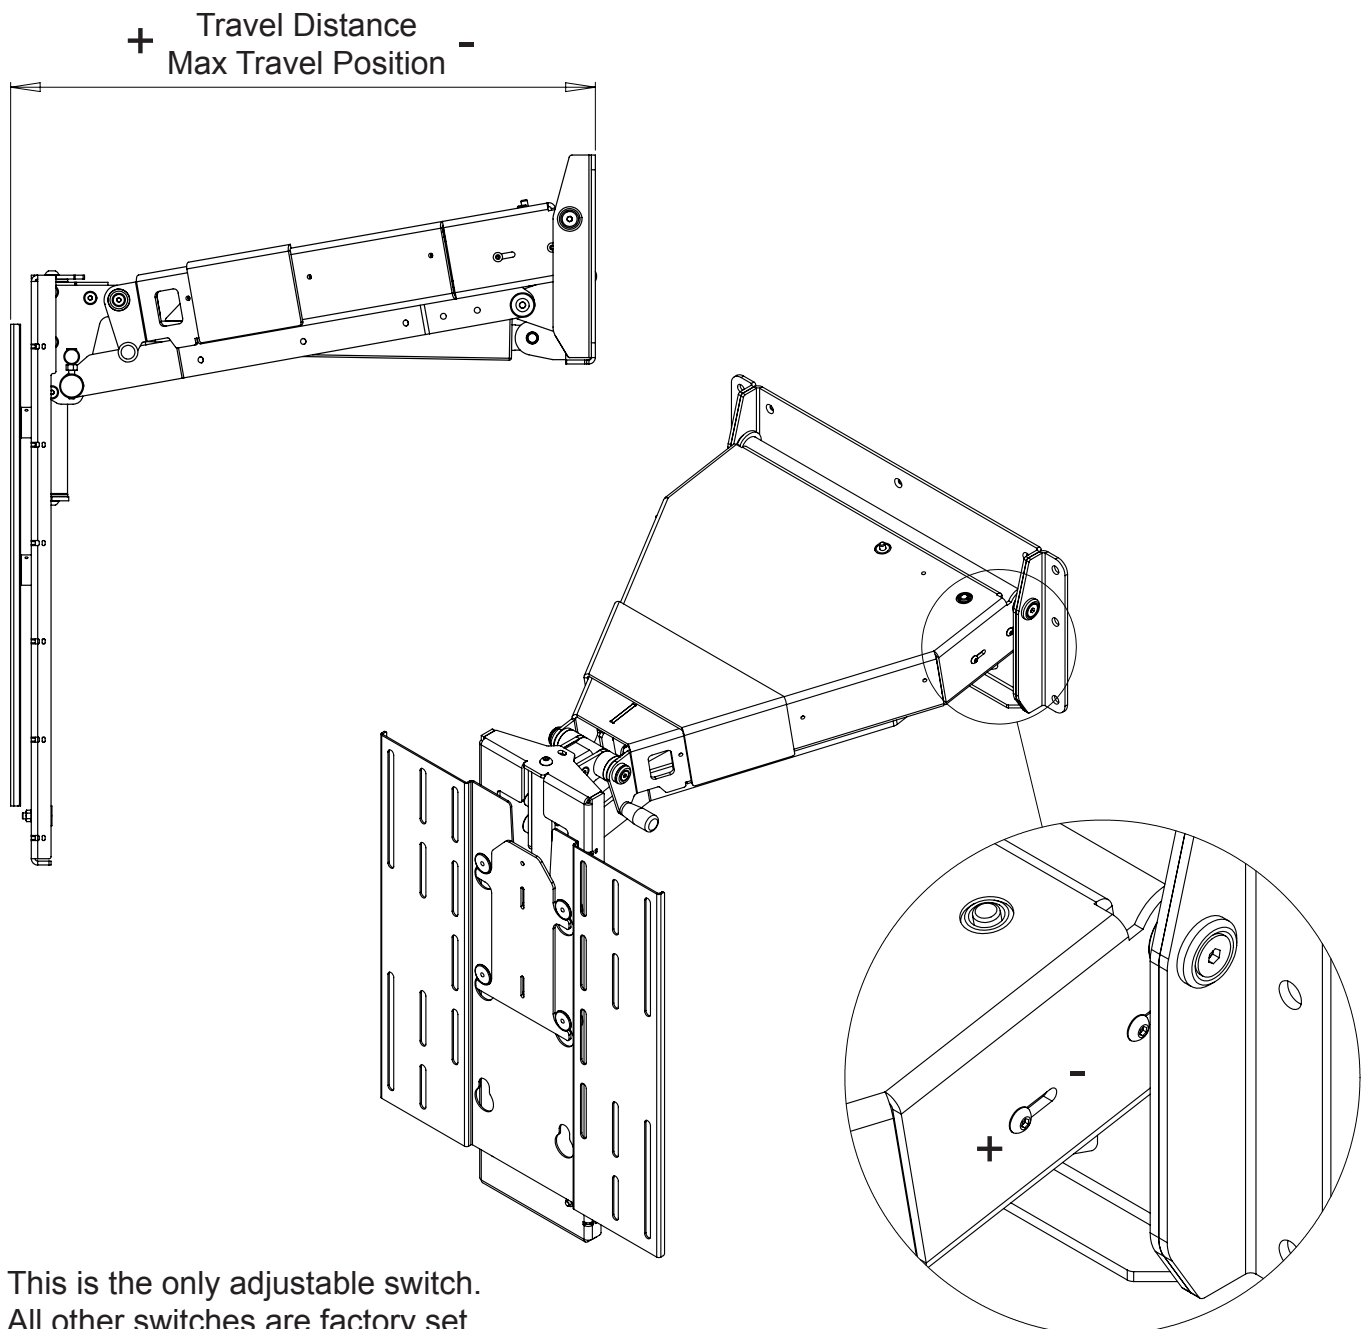

# EAD2 - Electric Advance & Drop V2

## Travel Switch Adjustment

To adjust the travel distance out position, loosen the 2 switch bolts on the side of the advance arm shown below in the detailed view. Slide the switch to adjust the travel.

Sliding the switch backwards towards the wall will reduce the travel distance.  
Sliding the switch forwards towards the screen will increase the travel distance.

This is the only adjustable switch.  
All other switches are factory set.

# EAD2 - Electric Advance & Drop V2

## Contact Closure

- Use an RJ45 connector in the CCI socket on the control box to operate via contact closure

| PIN | DESCRIPTION  | ACTION   | WIRE / CABLE |      | CONTACT CLOSURE |
|-----|--------------|--|--------------|------|-----------------|
|     |              |  | 568A         | 568B | LED INDICATOR   |
| 1   | 12V SUPPLY   | 12V SUPPLY - CURRENT LIMITED   | W/G          | W/O  |                 |
| 2   | 12V LATCH    | When 12V attached, device will go OUT. When 12V removed, device will go IN.  | G            | O    |                 |
| 3   | GROUND       | GROUND   | W/O          | W/G  |                 |
| 4   |              | PIN 4 NOT USED   | BL           | BL   |                 |
| 5   | DEVICE LATCH | Short to GROUND (pin 3), device will go OUT, remove short device will go IN. | W/BL         | W/BL | LED 4           |
| 6   | DEVICE STOP  | Momentary short to GROUND (pin 3), stops device in current position.         | O            | G    | LED 3           |
| 7   | DEVICE OUT   | Momentary short to GROUND (pin 3), makes device go OUT.                      | W/BR         | W/BR | LED 2           |
| 8   | DEVICE IN    | Momentary short to GROUND (pin 3), makes device go IN.                       | BR           | BR   | LED 1           |

# EAD2 - Electric Advance & Drop V2

## RS232

- Use an RJ25 connector in the socket marked RS232 on the control box to operate using RS232

**Pin 1: RX**  
**Pin 6 : TX**  
**Pin 3 & 4: GROUND**

**Pin 2: TX**  
**Pin 3: RX**  
**Pin 5: GROUND**

## Details

Baud rate: 9600  
 Stop bit: 1  
 Parity: None  
 Databits: 8

| RJ25          |    | 9 PIN D       |
|---------------|----|---------------|
| PIN 1: RX     | TO | PIN 2: TX     |
| PIN 6: TX     | TO | PIN 3: RX     |
| PIN 3: GROUND | TO | PIN 5: GROUND |
| PIN 4: GROUND | TO | PIN 5: GROUND |

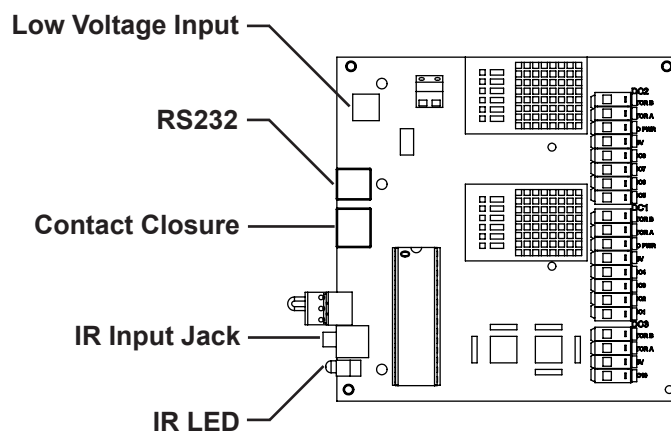

## IMPORTANT

Ensure protocol is entered exactly as written, including Carriage Return (Enter / ASCII 13).

| Protocol                           | Action                        |
|------------------------------------|-------------------------------|
| fa_in Carriage Return (Enter ←↵)   | Device IN                     |
| fa_out Carriage Return (Enter ←↵)  | Device OUT                    |
| fa_stop Carriage Return (Enter ←↵) | Device STOP (At any position) |

## Operation Details

# EAD2 - Electric Advance & Drop V2

## Operation buttons for the IR remote

**In** - Brings the mechanism inside the cabinet

**Stop** - Will stop the operation at any position

**Out** - Brings the mechanism out of the cabinet facing forward

**Store, Store + C** - Stores max out position

**Store, Store + B** - Clears max out position

**Store + D, E, F** - Stores positions D, E & F

**D, E, F** - Moves to relevant stored position

 **Note**  
Only buttons indicated are functional with the product. Any button pressed when in motion mechanism will stop.

## Replacing batteries

 Future Automation IR Remote Controller needs x2 AAA batteries which are provided within the packaging

# EAD2 - Electric Advance & Drop V2

A general technical overview of the EAD V2 electric advance and drop version 2 mechanism.
